THE CHALLENGE

A GREAT PRACTICE GOOGLE WAS HIDING

Westgrove Dental Care is a beloved, 5-star practice in Garden Grove — but online, almost nobody could find them. When people searched for a dentist nearby, the website barely showed up, so those patients were quietly going to competitors instead.

- 1 **Almost invisible in search.** The site ranked for only a small handful of terms — and not the ones people type when they're ready to book.
- 2 **Very few sites linked to them.** Google trusts businesses other websites vouch for. Westgrove simply didn't have that web of support yet.
- 3 **Not enough new visitors.** A wonderful team and perfect reviews — but too few new people were ever landing on the website to discover them.

WHERE THEY STARTED

65

keywords on Google · late 2025

Get Westgrove in front of **every person in Garden Grove** searching for a dentist — and turn that visibility into calls and booked appointments.

THE PROCESS

WHAT WE ACTUALLY DID

No gimmicks — just the proven fundamentals that make Google (and real patients) take notice, done consistently every single month.

1

SERVICE PAGE OPTIMIZATION

We rebuilt the website around the exact phrases real people search — like **"dentist in Garden Grove"** and **"emergency dentist near me"** — so Google clearly understands what Westgrove offers and who to show it to.

2

GOOGLE BUSINESS PROFILE OPTIMIZATION

We supercharged the Google Maps listing with fresh photos, posts, accurate info and a steady review strategy. Today Westgrove ranks **#1 on the map across nearly half of Garden Grove** and pulled in **44 calls straight from Google** in a single month.

3

BACKLINK & AUTHORITY BUILDING

We steadily earned links from other reputable websites pointing back to Westgrove. Think of each one as a recommendation that tells Google "this practice is the real deal." That trust now adds up to **701 backlinks from 396 different websites**.

4

PATIENT-FOCUSED KEYWORD STRATEGY

We targeted the high-intent searches patients actually use, prioritized urgent ones like emergency care, and published helpful, easy-to-read articles that keep pulling new visitors in month after month.

5

AI SEARCH VISIBILITY

We structured everything so Westgrove shows up not just in classic Google results, but also in the new AI answers (like Google's AI Overviews) that more and more patients now use to choose a dentist.

THE RESULTS

THE NUMBERS TELL THE STORY

In under a year of steady work, Westgrove went from hard-to-find to one of the most visible dentists in Garden Grove. Here's the proof — all from real tracking tools.

#1

on Google Maps across nearly half of Garden Grove for "dentist in garden grove"

Top 5 on Google for "dental care garden grove" & "dentist in garden grove"

184

KEYWORDS ON GOOGLE

Up from 65 — nearly 3× more searches now bring up Westgrove

701

BACKLINKS EARNED

From 396 different websites vouching for the practice

975

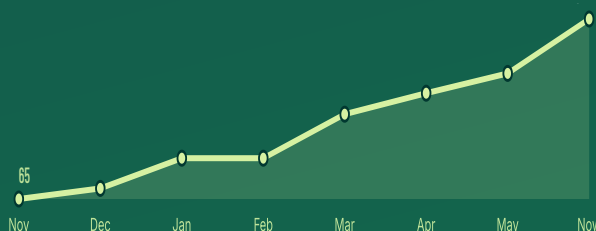

NEW VISITORS

New people who found the website in the last 12 months

KEYWORDS GREW FROM 65 →

184

A **+183% increase** — the steady climb as the work compounded month after

month.

**WE WENT FROM WONDERING IF OUR WEBSITE EVEN
WORKED TO HAVING NEW PATIENTS TELL US THEY FOUND
US RIGHT AT THE TOP OF GOOGLE.**
